INDEX TO VOLUME XXVIII, 1916.

PAGE.

Aero Engine, Renault, Two Hundred and Twenty Horsepower..... 797
Aeronautics..... 570
Aeroplane, Development of..... 574
Aeroplane Power Plants, by Warren G. Child, Lieutenant, U. S. N... 93
Airey, John, Assistant Professor of Engineering Mechanics, University of Michigan.—Strength of Boiler Furnaces..... 729
Alternating-Current System for Engine Telegraph, Helm-Angle Indicator, etc., by Leonard A. Doggett..... 443
Analysis of Brass and Bronze, by J. N. Lawrence, Chemist..... 913
Analysis of Stresses in Connecting Rods, by Karl F. Smith, Lieutenant (J. G.), U. S. N..... 524
Applications of Gearing for Transmitting Power..... 294
Association Notes..... 322, 611, 803, 1025

Backing, Stopping and Turning Ships, by S. M. Robinson, Lieutenant, U. S. N..... 58
Batteries, Storage, Description, Operation and General Characteristics of the Lead-Acid Type, by F. A. Daubin, Lieutenant (J. G.), U. S. N..... 893
Battleship, Electric Propulsion of, Comparisons Relating to..... 231
Bearings, Lubricating..... 1018
Beehler, W. P., Lieutenant, U. S. N.—Propulsive Machinery for Submarines; Translation from the German of Mr. C. Berling..... 177
Berling, G.—Propulsive Machinery for Submarines; Translated from the German, by W. P. Beehler, Lieutenant, U. S. N..... 177
Blading, Steam Turbine, Blade Fastenings, Steam Turbine Blade, by Jas. A. Capstaff..... 55
Blading, Steam Turbine..... 606
Blading, Turbine, Materials for..... 256
Blower Performance, by Wm. L. DeBaufre, M. E..... 145
Boiler Furnaces, Strength of, by John Airey, Asst. Prof. of Engineering Mechanics, University of Michigan..... 729
Boilers, Marine Steam, and Boiler-Room Equipment..... 746
Boilers, Naval, The Firing and Combustion of Soft Coal Under, by Wm. L. DeBaufre, M. E..... 453
Boiler-Room Equipment and Marine Steam Boilers..... 746
Boiler-Tube Cleaner, The Dean..... 236
Boiler, Ward, Test of, by S. M. Robinson, Lieutenant, U. S. N..... 516
Bonnaffon, E. W., Pay Inspector, U. S. N.—Classification of Scrap Material at the Naval Gun Factory, Washington, D. C..... 129
Books Received..... 321, 609, 802, 1024
Brake, Ship, Results of Model-Tank Experiments to Determine the Action of..... 303

Brass and Bronze, Analysis of, by J. N. Lawrence, Chemist 913
Bronze and Brass, Analysis of, by J. N. Lawrence, Chemist 913
Bushnell, U. S. S., Submarine Tender No. 2, by G. E. Davis, Lieutenant, U. S. N 669

Capstaff, Jas. A.—Steam Turbine Blade Fastenings 55
Care and Operation of Ice Machines, by J. O. Richardson, Lieutenant Commander, U. S. N 839
Carter, W. R., Lieutenant (J. G.), U. S. N.—The Ljungström System of Electric Drive 708
Case-Hardening, Materials Used in 260
Case-Hardening Process for Tool Steel 257
Centrifugal Fan Calculations by the "Specific Speed" Method, by M. C. Stuart, M. E 613
Child, Warren G., Lieutenant, U. S. N.—Aeroplane Power Plants 93
Classification of Scrap Material at the Naval Gun Factory, Washington, D. C., by E. W. Bonnaffon, Pay Inspector, U. S. N 129
Cleaner, Boiler Tube, The Dean 236
Coal, Fuel Oils from 786
Coal, Soft, Firing and Combustion of, Under Naval Boilers, The, by Wm. L. DeBaufre, M. E 453
Coal, The Volatile Matter of, by J. G. O'Neill, Chemist 11
Combined Bearing and Michell Thrust Block 585
Combustion and Firing of Soft Coal Under Naval Boilers, The, by Wm. L. DeBaufre, M. E 453
Combustion, Spontaneous, Prevention of 316
Comparator, Length for Determining Linear Coefficients of Expansion, by Wm. L. DeBaufre, M. E 881
Comparisons Relating to Electric Propulsion of a Battleship 231
Condensers, Surface, High-Vacuum, Performance and Design of 550
Connecting Rods, Stresses in, Analysis of, by Karl F. Smith, Lieutenant (J. G.), U. S. N 524
Conyngham, U. S. S., by H. H. Norton, Lieutenant, U. S. N 369
Copper, Electrolytic 262
Cox, Ormond L., Lieutenant, U. S. N.—*Nevada*, U. S. S 20
U. S. S. *Tucker* 654

Daubin, F. A., Lieutenant (J. G.), U. S. N.—Storage Batteries, Description, Operation and General Characteristics of the Lead-Acid Type 893
Davis, G. E., Lieutenant, U. S. N.—U. S. S. *Bushnell*, Submarine Tender No. 2 669
Dean Boiler-Tube Cleaner, The 236
DeBaufre, Wm. L., M. E.—Blower Performance 145
The Firing and Combustion of Soft Coal Under Naval Boilers 453
A Length Comparator for Determining Linear Coefficients of Expansion 881

Design and Performance of High-Vacuum Surface Condensers..... 550
Diesel Engine, Marine, Present Position of and its Possibilities..... 560
Diesel Engine, McIntosh & Seymour 500-H.P..... 250
Diesel Engine Propelled Ship *Pacific*..... 233
Distillation of Lubricating Oils, Fraction, by J. G. O'Neill, Chemist.. 465
Doggett, Leonard A.—An Alternating-Current System for Engine Telegraph, Helm-Angle Indicator, etc..... 443
Dry Dock to be Built..... 302
Dyson Method of Solution of Propeller Problems, Tables and Curves for, and a New Method of Estimating Revolutions, by S. M. Robinson, Lieutenant, U. S. N..... 805

Education, Post Graduate, in Naval Engineering, by John Halligan, Jr., Lieutenant Commander, U. S. N..... 215
Edwards, John R., Rear Admiral, U. S. N.—The Industrial and Strategical Importance of our Naval Stations..... 383
Effects of Vacuum on Steam Turbines..... 301
Electric Drive, The Ljungström System of, by W. R. Carter, Lieutenant (J. G.), U. S. N..... 708
Electric Propulsion of a Battleship, Comparisons Relating to 231
Electric Welding, Process of..... 266
Electrolytic Copper 262
Engines, Oil 779
Engine Telegraph, Helm-Angle Indicator, etc., Alternating-Current System for, by Leonard A. Doggett..... 443
Engineering Experiment Station, Annapolis, Md., Testing of Metals at, by D. J. McAdam, Jr..... 361
Engineering Experiment Station, Annapolis, Md., Test of Steam Traps at, by J. L. Kauffman, Lieutenant (J. G.) 123
Engineering, Naval, Post Graduate Education in, by John Halligan, Jr., Lieutenant Commander, U. S. N 215
Erosive Effect of Steam on Turbine-Blading Material, by T. J. Keleher, Lieutenant (J. G.), U. S. N..... 836
Estimating Revolutions, a New Method of, and Tables and Curves for Solution of Propeller Problems by the Dyson Method, by S. M. Robinson, Lieutenant, U. S. N..... 805
Expansion, Linear Coefficients of, A Length Comparator for Determining, by Wm. L. DeBaufre, M. E..... 881
Experiments in Natural-Draft Oil Burning, by L. R. Ford, Lieutenant (J. G.), U. S. N..... 641
Experiments, Model-Tank, to Determine the Action of a Ship Brake, Results of 303

Fan, Centrifugal, Calculations by the "Specific Speed" Method, by M. C. Stuart, M. E..... 613
Fastenings, Steam Turbine Blade, by Jas. A. Capstaff..... 55
Firing and Combustion of Soft Coal Under Naval Boilers, The, by Wm. L. DeBaufre, M. E..... 453

Fisher, J. O., Lieutenant Commander, U. S. N.—Spark Plugs 828
Flow of Steam in Pipes 578
Forced-Feed Lubrication Aboard Ship 308
Ford, L. R., Lieutenant (J. G.), U. S. N.—Some Experiments in Natural-Draft Oil Burning 641
Fractional Distillation of Lubricating Oils, The, by J. G. O'Neill, Chemist 465
Freight Steamers, New Luckenbach 548
Frictional Resistance of Ships, Variation of, with Condition of Wetted Surface 311
Fuel Oils from Coal 786
Furnaces, Boiler Strength of, by John Airey, Asst. Prof. of Engineering Mechanics, University of Michigan 729
Future of Ship Propulsion 539

Geared Turbine Propelling Machinery on Freight Steamer *Pacific*, Trials of 545
Gearing, Applications for Transmitting Power 294
German Navy, Submarine Engines of, by C. W. Nimitz, Lieutenant, U. S. N. 487
Gregory, Henderson B.—*Oklahoma*, U. S. S 327
Gyro Stabilizers 607

Halligan, John, Jr., Lieutenant Commander, U. S. N.—Post Graduate Education in Naval Engineering 215
Heat Treatment of Steel 271
Helm-Angle Indicator, Engine Telegraph, etc., Alternating-Current System for, by Leonard A. Doggett 443
High-Vacuum Surface Condensers, Performance and Design of 550

Ice Machines, Care and Operation, by J. O. Richardson, Lieutenant Commander, U. S. N 839
Industrial and Strategical Importance of our Naval Stations, by John R. Edwards, Rear Admiral, U. S. N 383
Isherwood, Benjamin F., Engineer and Scientist, A Tribute of Respect, by Walter M. McFarland 1

Jacob Jones, U. S. S., by W. F. Sicard 498

Kauffman, J. L., Lieutenant (J. G.), U. S. N.—Testing of Steam Traps at the U. S. Naval Engineering Experiment Station, Annapolis, Md 123
Kauffman, J. L. Lieutenant (J. G.), U. S. N 692
Keleher, T. J., Lieutenant (J. G.), U. S. N.—Erosive Effect of Steam on Turbine-Blading Material 836

Lawrence, J. N., Chemist.—Analysis of Brass and Bronze 913
Lead-Acid Type Storage Batteries, Description, Operation and General Characteristics of, by F. A. Daubin, Lieutenant (J. G.), U. S. N..... 893
Length Comparator, for Determining Linear Coefficients of Expansion, by Wm. L. DeBaufre, M. E 881
Linear Coefficients of Expansion, A Length Comparator for Determining, by Wm. L. DeBaufre, M. E..... 881
Little, H. H., Ensign, U. S. N.—The Salvage of the U. S. S. *Princeton* at Pago Pago, Samoa..... 203
Ljungström System of Electric Drive, The, by W. R. Carter, Lieutenant (J. G.), U. S. N..... 708
Lubricating Bearings..... 1018
Lubricating Oils, by J. L. Kauffman, Lieutenant (J. G.), U. S. N..... 692
Lubricating Oils, The Fractional Distillation of, by J. G. O'Neill, Chemist..... 465
Lubricating Value, Viscosity and its Relation to..... 597
Lubrication, Forced Feed Aboard Ship 308
Lubrication, Relation of Properties of, to 789
Luckenbach, Freight Steamers, New..... 548

McAdam, D. J., Jr.—Testing of Metals at the Engineering Experiment Station, Annapolis, Md..... 361
McFarland, W. M.—Benjamin F. Isherwood, Engineer and Scientist. A Tribute of Respect 1
McIntosh & Seymour 500-H.P. Diesel Engine..... 250
Maas, E. F.—Mechanical-Test Station for a Navy Yard 134
Machinery, Propulsive, for Submarines, by Mr. G. Berling; Translated from the German by W. P. Beehler, Lieutenant, U. S. N..... 177
Manufacturing Seamless Steel Tubes..... 589
Marine Practice, Superheated Steam in..... 234
Marine Refrigerating Machine, New 238
Marine Steam Boilers and Boiler-Room Equipment..... 746
Materials for Turbine Blading..... 256
Materials Used in Case-Hardening..... 260
Mechanical Test Station for a Navy Yard, by E. F. Maas..... 134
Metals, Testing of, at the Engineering Experiment Station, Annapolis, Md., by D. J. McAdam, Jr..... 361
Michell Thrust Block and Combined Bearing 585
Model Tank Experiments to Determine the Action of a Ship Brake, Results of 303
Motor Craft, Notes on 1021

Natural-Draft Oil Burning, Some Experiments in, by L. R. Ford, Lieutenant (J. G.), U. S. N..... 641
Naval Boilers, The Firing and Combustion of Soft Coal Under, by Wm. L. DeBaufre, M. E 453
Naval Engineering, Post Graduate Education in, by John Halligan, Jr., Lieutenant Commander, U. S. N..... 215

Naval Station, U. S., Industrial and Strategical Importance of, by John R. Edwards, Rear Admiral, U. S. N..... 383
Naval Gun Factory, Washington, D. C., Classification of Scrap Material at, by E. W. Bonnaffon, Pay Inspector, U. S. N..... 129
Naval Vessels, Percentage of Completion.....318, 608, 801, 1023
Nevada, U. S. S., by Ormond L. Cox, Lieutenant, U. S. N 20
Nimitz, C. W., Lieutenant, U. S. N.—Submarine Engines of the German Navy 487
Norton, H. H., Lieutenant, U. S. N.—*Conyngham*, U. S. S..... 309
Notes on Motor Craft..... 1021

Obituary, Benjamin F. Isherwood, by W. M. McFarland..... 1
Oil Burning, Natural-Draft, some Experiments in, by L. R. Ford, Lieutenant (J. G.), U. S. N..... 641
Oil Engines..... 779
Oil Fuel..... 932
Oils, Fuel, from Coal..... 786
Oils, Lubricating, by J. L. Kauffman, Lieutenant (J. G.), U. S. N 692
Oils, Lubricating, The Fractional Distillation of, by J. G. O'Neill, Chemist 465
Oils, Properties of, and their Relation to Lubrication..... 789
Oklahoma, U. S. S., by Henderson B. Gregory..... 327
O'Neill, J. G., Chemist.—The Volatile Matter of Coal..... 11
The Fractional Distillation of Lubricating Oils..... 465
Operation and Care of Ice Machines, by J. O. Richardson, Lieutenant Commander, U. S. N..... 839

Pacific, Diesel Engine Propelled Ship 233
Pacific, Freight Steamer, Trials of Geared Turbine-Propelling Machinery on..... 545
Pallograph, The Sperry..... 581
Performance and Design of High-Vacuum Surface Condensers..... 550
Pipes, Flow of Steam in 578
Post-Graduate Education in Naval Engineering, by John Halligan, Jr., Lieutenant Commander, U. S. N..... 215
Power, Applications of Gearing for Transmitting 294
Power Plant, Submarine 286
Power Plants, Aeroplane, by Warren G. Child, Lieutenant, U. S. N ... 93
Present Condition of the Submarine..... 272
Present Position of the Marine Diesel Engine and its Possibilities..... 560
Prevention of Spontaneous Combustion 316
Princeton, U. S. S., Salvage of, at Pago Pago, Samoa, by H. H. Little, Ensign, U. S. N..... 203
Process of Electric Welding 266
Propeller Problems, Tables and Curves for Solution of, by Dyson Method, and a New Method of Estimating Revolutions, by S. M. Robinson, Lieutenant, U. S. N 805

Properties of Oils and their Relation to Lubrication, The 789
Propulsion and Resistance, Ship Calculation 384
Propulsion of a Battleship, Electric, Comparisons Relating to 231
Propulsion, Ship, Future of 539
Propulsion, Submarine 292
Propulsion, Turbo-Electric 230
Propulsive Machinery for Submarines, by Mr. G. Berling; Translated from the German by W. P. Beehler, Lieutenant, U. S. N. 177

Radio-Telephony 786
Refrigerating Machine, Marine, New 238
Renault Aero Engine, Two Hundred and Twenty Horsepower 797
Revolutions, A New Method of Estimating, and Tables and Curves for Solution of Propeller Problems by the Dyson Method, by S. M. Robinson, Lieutenant, U. S. N. 805
Resistance and Propulsion, Ship Calculation 314
Resistance of Ships, Frictional, Variation of, with Condition of Wetted Surface 311
Richardson, J. O., Lieutenant Commander, U. S. N.—Care and Operation of Ice Machines 839
Robinson, S. M., Lieutenant, U. S. N.—
Stopping, Backing and Turning Ships 58
Tables and Curves for Solution of Propeller Problems by the Dyson Method, and a New Method of Estimating Revolutions 805
Test of Ward Boiler 516
Rods, Connecting, Stresses in, Analysis of, by Karl F. Smith, Lieutenant (J. G.), U. S. N. 524

Salvage of the U. S. S. *Princeton*, at Pago Pago, Samoa, The, by H. H. Little, Ensign, U. S. N. 203
Scrap Material, Classification of, at the Naval Gun Factory, Washington, D. C., by E. W. Bonnaffon, Pay Inspector, U. S. N. 129
Seamless Steel Tubes, Manufacturing 589
Ship Brake, Results of Model-Tank Experiments to Determine the Action of 303
Ship Calculation, Resistance and Propulsion 314
Ship Propulsion, Future of 539
Sicard, W. F.—U. S. S. *Jacob Jones* 498
Smith, Karl F., Lieutenant (J. G.), U. S. N.—Analysis of Stresses in Connecting Rods 524
Spark Plugs, by J. O. Fisher, Lieutenant Commander, U. S. N. 828
Specific Speed Method of Centrifugal-Fan Calculations, by M. C. Stuart, M. E. 613
Sperry Pallograph, The 581
Spontaneous Combustion, Prevention of 316
Stabilizers, Gyro 607
Steam Boilers, Marine, and Boiler-Room Equipment 746

Steam, Erosive Effect of, on Turbine-Blading Material, by T. J. Keleher, Lieutenant (J. G.), U. S. N 836
Steam, Flow of, in Pipes 578
Steam Traps, Testing of, at the U. S. Naval Engineering Experiment Station, Annapolis, Md., by J. L. Kauffman, Lieutenant (J. G.), U. S. N 123
Steam Turbine Blade Fastenings, by Jas. A. Capstaff 55
Steam Turbine Blading 606
Steam Turbines, Vacuum, and its Effects on 301
Steel, Heat Treatment of 271
Steel, Tool, Case-Hardening Process for 257
Steel, Tool, Research Report 574
Steel Tubes, Seamless, Manufacturing 589
Stopping, Backing and Turning Ships, by S. M. Robinson, Lieutenant, U. S. N 58
Storage Batteries, Description, Operation and General Characteristics of the Lead-Acid Type, by F. S. Daubin, Lieutenant (J. G.), U. S. N. 893
Strategical and Industrial Importance of our Naval Stations, by John R. Edwards, Rear Admiral, U. S. N 383
Strength of Boiler Furnaces, by John Airey, Asst. Prof. of Engineering Mechanics, University of Michigan 729
Stresses in Connecting Rods, Analysis of, by Karl F. Smith, Lieutenant (J. G.), U. S. N 524
Stuart, M. C., M. E.—Centrifugal Fan Calculations by the "Specific Speed" Method 613
Submarine Engines of the German Navy, by C. W. Nimitz, Lieutenant, U. S. N 487
Submarine of Tomorrow, The 278
Submarine Power Plant, The 286
Submarine, Present Condition of 272
Submarine Propulsion 292
Submarines, Propulsive Machinery for, by Mr. G. Berling; Translated from the German by W. P. Beehler, Lieutenant, U. S. N 177
Submarine Tender No. 2, U. S. S. *Bushnell*, by G. E. Davis, Lieutenant, U. S. N 669
Superheated Steam in Marine Practice 234
Surface Condenser, High-Vacuum, Performance and Design of 550

Tables and Curves for Solution of Propeller Problems by the Dyson Method, and a New Method of Estimating Revolutions, by S. M. Robinson, Lieutenant, U. S. N 805
Testing of Metals at the Engineering Experiment Station, Annapolis, Md., by D. J. McAdam, Jr 361
Testing of Steam Traps at the U. S. Naval Engineering Experiment Station, Annapolis, Md., by J. L. Kauffman, Lieutenant (J. G.), U. S. N 123
Test of Ward Boiler, by S. M. Robinson, Lieutenant, U. S. Navy 516
Test Station, Mechanical, for a Navy Yard, by E. F. Maas 134

Tool Steel, Case-Hardening Process for 257
Tool-Steel Research Report 574
Transmitting Power, Applications of Gearing for 294
Traps, Steam, Testing of, at the U. S. Naval Engineering Experiment Station, Annapolis, Md., by J. L. Kauffman, Lieutenant (J. G.), U. S. N 123
Trials of Geared Turbine Propelling Machinery on Freight Steamer *Pacific* 545
Tubes, Seamless Steel, Manufacturing 589
Tucker, U. S. S., by Ormond L. Cox, Lieutenant, U. S. N 654
Turbine-Blading Material, Erosive Effect of Steam on, by T. J. Keleher, Lieutenant (J. G.), U. S. N 836
Turbine Blading, Materials for 256
Turbine Blading, Steam 606
Turbo-Electric Propulsion 230
Turbine, Geared, Trials of, on Freight Steamer *Pacific* 545
Turbine, Steam, Blade Fastenings, by Jas. A. Capstaff 55
Turbines, Steam, Vacuum and its Effects on 301
Turning, Stopping and Backing Ships, by S. M. Robinson, Lieutenant, U. S. N 58
Two Hundred and Twenty Horsepower Renault Aero Engine 797

Vacuum Apparatus, New 247
Vacuum and its Effects on Steam Turbines 301
Viscosity and its Relation to Lubricating Value 597
Volatile Matter of Coal, The, by J. G. O'Neill, Chemist 11

Ward Boiler, Test of, by S. M. Robinson, Lieutenant, U. S. N 516
Welding, Electric, Process of 266
Wind Tunnel, Experimental, Naval 603
